1. Philippine Science Centrum (PSC). A combination of a science center and museum featuring over 100 interactive and hands-on exhibits.

4. Science Centrum Fabrication. This is an exhibit fabrication unit of PFST for interactive exhibits with the technical capability of developing, prototyping, fabricating and/or manufacturing interactive exhibits and other educational paraphernalia for the promotion and development of science and technology.

The target participants are learners, teachers and school administrators from public and private schools.
